

Beissier Color System

Beissier Color System

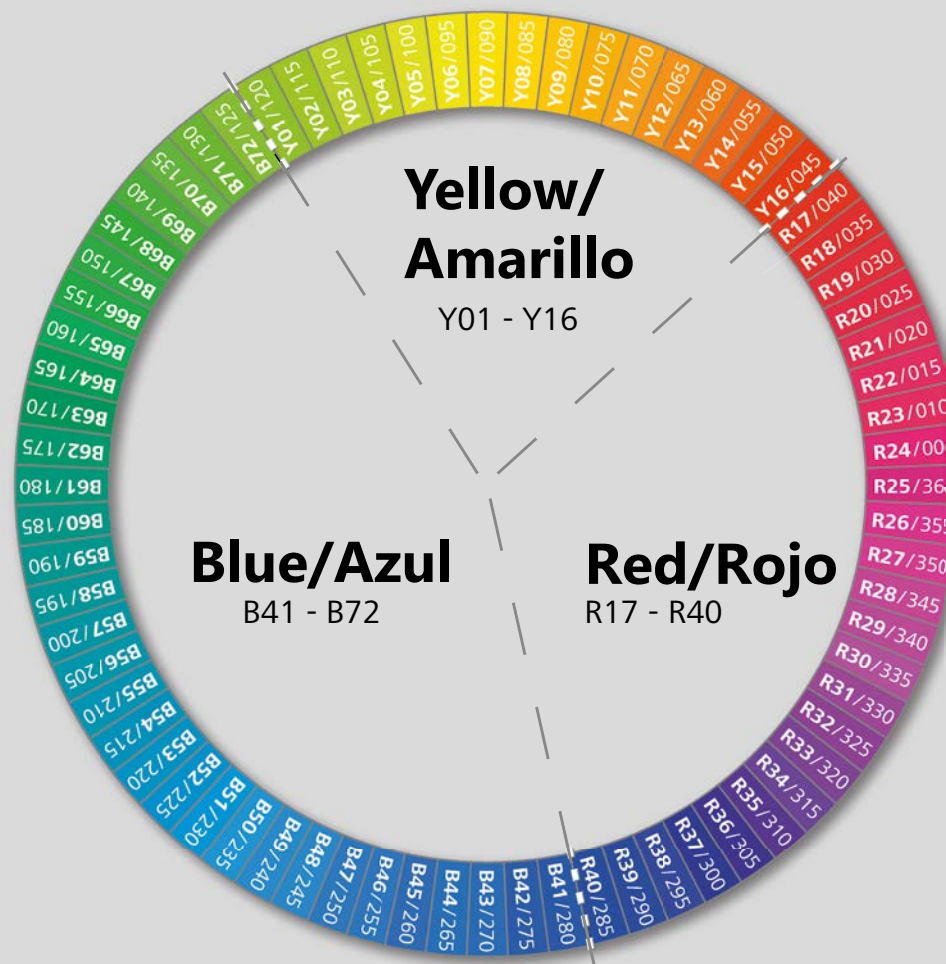

El nuevo Beissier Color System está basado en cuadrículas colorimétricas y contiene 1.000 colores para el diseño de fachadas e interiores.

El sistema está basado en 72 niveles (Y01-B72) del círculo cromático, divididos según los colores primarios Amarillo (Y), Rojo (R) y Azul (B). Cada uno de estos niveles cromáticos permite gradientes de color específicos, complementados con la gama de colores Neutros y Naturales (N) compuestos por diversos tonos de negro, gris y blanco. Además, se han integrado y nombrado 65 tonos de color históricamente significativos o propios de un material.

Para más información visitar la página web de Beissier:

Beissier Color System

Explicación de símbolos

Y01 70 50

Código de color

Valor de reflectancia luminosa

C0/C1/C2/C3

Clase de tono de color.

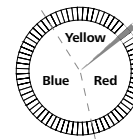

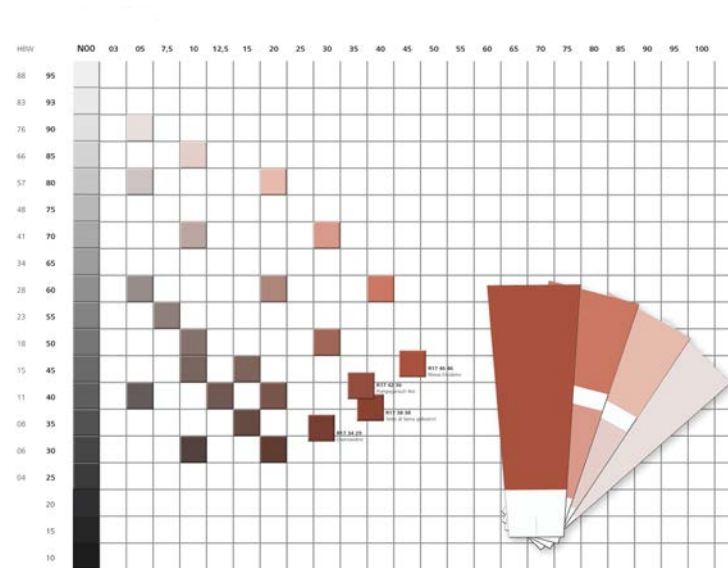

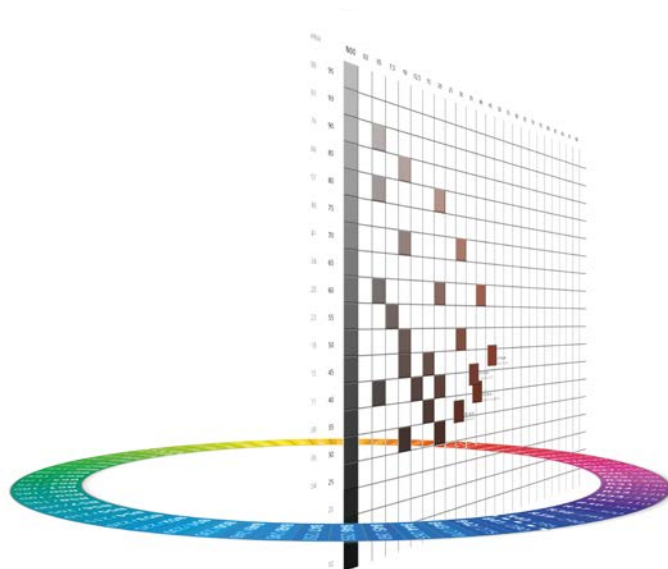

Coste adicional por la tonalidad del color.

Colores posibles al siloxano.

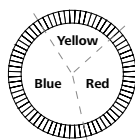

Xb25 / Xb30

Disponible para productos con Tecnología DarkCool obteniendo una TSR (Reflectancia Solar Total) con valor superior a 25 o 30.

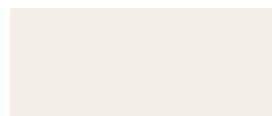

Advertencia

Pueden producirse pequeñas diferencias con respecto al tono original de color, debido al sistema de impresión de esta carta de colores. En nuevos pedidos de colores, para una misma fachada, debe indicarse siempre el número de pedido anterior. Además, hay que tener en cuenta que los diferentes tipos y estructuras del fondo a revestir pueden ocasionar efectos sobre los colores, que podrían diferir del tono original elegido. No se admitirán reclamaciones por divergencias del tono de color original, que se deban a las causas indicadas.
